Invitation to the IX Federal German Meeting of the "Tauschrings"

Dear adherent of a Tauschring, dear interested person,

The Tauschring of Bad Aibling invites you very cordially to the Federal meeting 2003 from 3 to 5 October, in the beautiful Bavaria.

Under the motto: **"Transfer of Talents – up to date and boundless"** - in cooperation with other Tauschrings (TRs) - we would like to offer an interesting and colourful program to you. The problem of the current monetary system gets worse for many people and our old remedies threaten to fail. Therefore, we aim in particular at leaving the limitations of the "Tauschring"-system.

New and serious ideas for exchange and economy seem overdue – especially designed for small regions. This is where we want to contribute with this year's meeting.

For years, the Tauschrings promote the self-responsibility and the solidarity apart from the conventional monetary system.

Can we combine these values with the advantages of the conventional money, which serves as a medium of exchange?

If yes, how? We want to pursue these questions.

Our principle is "not only..., but also" instead of "the one or the other".

This successive development could conduct the idea "Tauschring" out of its niche, where it is often derided.

As referents or creators of workshops there are:

- **Prof. Dr. Margrit Kennedy** (book: "Interest and Inflation Free Money")
- **Susanne Korbmacher-Schulz** (Light-Thaler-project, TR for teenagers)
- **Prof. Michael Linton** (Founder of the 1st Tauschring-LET System in Canada)
- **Dr. Pantaleo Rizzo** (Expert: System of Interinformation & Multilateral Reliance)
- **Heidemarie Schwermer** (lives without money, book "The star-thaler-experiment")

Important information regarding the registration:

Dear TR adherent,

we have decided to realize the Federal meeting in Bad Aibling without any bigger funding by official sponsors. Therefore we have the utmost freedom to treat any topic we want to. That, however, involves a higher financial contribution by the participants and renouncement of bigger expenses, e.g. for more comfortable overnight stays.

In a little town like Bad Aibling, suitable and advantageous rooms for the operation of such a big event are very rare. **Therefore, the exact location of this event will depend on the amount of registrations.** You will receive further and more elaborate information with the registration confirmation. (Location of the event and how to get there, accommodation, objects to bring, exact programme etc.)

To enrich our programme we would like to use the upcoming weeks to include more suggestions and contributions from other change systems. Your ideas or any help are welcome. Please contact us by e-mail: Vierix@t-online.de

There is only one fee for the whole meeting. It includes all three days. No reductions are possible, even if you neither stay overnight nor take food, or if you only stay for a single day. However, in special cases, we try to accommodate your needs.

Finally, a last request: please forward this invitation and the registration form to other active people in Tauschrings and to persons that may be interested in the TR-theme.

Many thanks for your help!

Please be well and explicitly aware of the following:

The participation in the event is voluntary.

Each participant carries the full responsibility for him-/herself and her/his actions within and outside the respective event. The management is not liable for any damages caused by the participants.

Each person will pay for damages caused and leaves the organizers and the management of the event free of any liability and claim.

Thanks for your understanding!
